Fridge

You and your friend Sam go for a long walk together. After the walk, you go back to Sam's house. You say to Sam, 'I'm thirsty.' Sam opens the fridge and responds, 'Sure, I have...

Set Top-K (K = 20)

Exclusion probabilities: six experimental words

Rank	Word	Probability
1	**water**	1.000
2	**juice**	0.762
3	**milk**	0.260
4	**yogurt**	0.006
5	**ketchup**	0.002
6	**meat**	0.000

Human exclusion

Mean across five spoken alternatives

Rank	Word	Mean rate
1	**juice**	1.000
2	**water**	0.967
3	**milk**	0.872
4	**yogurt**	0.209
5	**ketchup**	0.140
6	**meat**	0.080

Bold words were tested in the experiment. No linking shows the top 5 continuations and up to 4 intervening words per experimental-word gap.
No linking positions refer to the full vocabulary; ... marks omissions. Set and human columns are independently ranked among the 6 experimental words; = marks ties.
Human rates average the five trigger-specific exclusion rates with equal weights. They summarize across spoken alternatives; the individual rates may differ.
Saved corrected Qwen2-7B results; Set uses 500 samples. Zero means 0/500 inclusions. No new sampling.
