Gym

You and your friend Lee are registering for classes at a fitness center. You say to Lee, 'Let's sign up for some team sports.' Lee looks at the list of classes and responds, 'Sure, they have...

Set Top-K (K = 20)

Exclusion probabilities: six experimental words

Rank	Word	Probability
1	**basketball**	0.972
2	**softball**	0.292
3	**swimming**	0.144
4	**lacrosse**	0.036
5=	**weightlifting**	0.004
5=	**meditation**	0.004

Human exclusion

Mean across five spoken alternatives

Rank	Word	Mean rate
1	**lacrosse**	0.976
2	**basketball**	0.950
3	**softball**	0.897
4	**swimming**	0.635
5	**weightlifting**	0.550
6	**meditation**	0.320

Bold words were tested in the experiment. No linking shows the top 5 continuations and up to 4 intervening words per experimental-word gap.
No linking positions refer to the full vocabulary; ... marks omissions. Set and human columns are independently ranked among the 6 experimental words; = marks ties.
Human rates average the five trigger-specific exclusion rates with equal weights. They summarize across spoken alternatives; the individual rates may differ.
Saved corrected Qwen2-7B results; Set uses 500 samples. Zero means 0/500 inclusions. No new sampling.
